

VTA ENGINEERING SERVICES PVT. LTD.

Structural & Civil Solutions

Starting is easy,
Persistence is an art

The background of the lower half of the page is a photograph of a city skyline at dusk or dawn, with the Empire State Building prominently lit in red. Overlaid on the bottom left is a large, abstract graphic composed of several overlapping blue triangles and polygons in various shades of blue.

About Us

VTA Engineering Services is a structural steel, Rebar & Precast detailing services company. Founded in Mumbai, India in 2009, VTA Engineering Services has rapidly grown through the completion of detailing services for a diverse range of clients, including Commercial & Industrial projects. We believe in human centered approach. No Matter how small or big your steel construction project is, our expert team will help cut down the manufacturing costs by providing accurate drawings.

Our Services Include

Steel Detailing : Powered by SDS/2, VTA Engineering Services use the latest software to produce accurate shop & Field drawings. We ensure all of our drawings are produced to a quality standard and are easy to read.

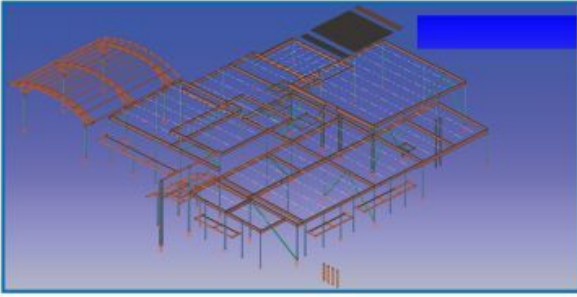

Rebar & Precast Detailing : We offer highly professional and economical services for Rebar detailing & Precast panels detailing using Rebar CAD & Auto CAD software. Our experience in the construction industry and expertise in the best software applications helps us to provide error free solutions.

Our Team

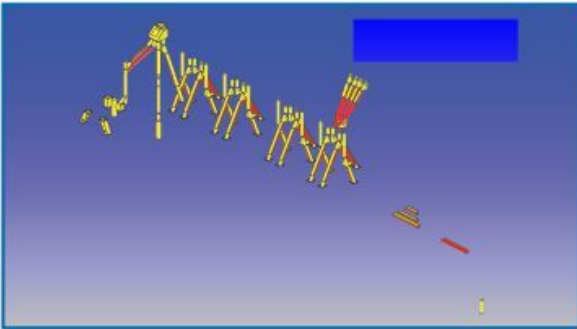

We understand that business value cannot be achieved through technology alone. It starts with people. We believe this human-centered approach to technology is what makes the difference for your business. We have a team of detailers well versed and experienced in structural steel detailing, Rebar detailing & precast panel detailing using software applications SDS/2, Rebar CAD, AutoCAD. We have qualified and experienced Checkers for review and verification of detailed shop drawings to ensure that errors are eliminated before drawings are handed to our Clients.
